

# AJEESH T S

Senior / Lead iOS Developer

📞 918086644704    ✉️ itsajeeshs@gmail.com

Portfolio: [ajeeshs.com](http://ajeeshs.com)

## Professional Profile

---

Senior iOS Developer with 15+ years of experience building high-quality production mobile applications for startups and global clients. Specialized in Swift, Objective-C, SwiftUI, and UIKit with strong expertise in scalable architecture, performance optimization, debugging, and App Store delivery.

Also experienced in cross-platform mobile development using React Native and Expo, with strong product focus on onboarding, subscriptions, analytics, retention, and engineering quality.

## Technical Expertise

---

Native iOS: Swift, Objective-C, SwiftUI, UIKit, Combine, Core Data, SwiftData, AVFoundation, StoreKit

Cross Platform: React Native, Expo, Flutter, TypeScript, Native Module Integration

Product Quality: Onboarding UX, Product Analytics, A/B Testing, RevenueCat, PostHog, Firebase, AppsFlyer

Domain Experience: Retail, Healthcare, Social Networking, AI, IoT

## Professional History

---

Flipr — Lead iOS Consultant

France (Remote) | Feb 2021 – May 2025

IoT based mobile platform for monitoring and managing connected swimming pool devices via Bluetooth Low Energy (BLE).

- Designed and implemented BLE communication for device discovery, connection, and real time data synchronization
- Built scalable iOS architecture for IoT device data processing and backend integration
- Improved app performance, reliability, and long-term production scalability across multiple releases

Tech Stack: Swift, UIKit, Core Bluetooth, REST APIs, IoT

App Store: [Flipr iOS App](#)

ThyWord — Senior Mobile Engineer

Remote Project | Jan 2026 – May 2026

AI powered faith and scripture mobile application delivering personalized guided audio experiences on iOS and Android.

- Built cross platform mobile application using React Native and Expo
- Architected onboarding flows to improve activation, retention, and subscription conversion
- Implemented subscriptions, analytics, audio playback, and push notification systems

Tech Stack: React Native, Expo, TypeScript, RevenueCat, Firebase, PostHog  
App Store: [ThyWord Prayer & Scripture](#)

Litmus7 — iOS Consultant  
InfoPark, Kochi | Sep 2020 – Nov 2020

Worked on iPhone and iPad applications in the e-commerce domain with focus on solution design, development, and production support.

Tech Stack: Swift, UIKit, REST APIs

ThinkPalm — iOS Consultant  
InfoPark, Kochi | Dec 2019 – Mar 2020

Worked on iPhone and iPad applications involving video streaming, media upload workflows, and social networking features.

Tech Stack: Swift, UIKit, Video Streaming, REST APIs

Marlabs — iOS Consultant  
InfoPark, Kochi | Jan 2019 – Feb 2019

Worked on iPhone and iPad applications involving blockchain related product features and integration workflows.

Tech Stack: Objective-C, UIKit, REST APIs, Blockchain

Devspark — iOS Consultant  
InfoPark, Kochi | Apr 2019 – Jul 2019

Worked on iPhone and iPad applications in the e-commerce domain, contributing to solution design, development, and production support.

Tech Stack: Swift, UIKit, REST APIs, E-commerce

RapidValue Solutions — Senior Software Engineer (Permanent)  
InfoPark, Kochi | Feb 2011 – Sep 2015

Built and supported multiple iPhone and iPad applications across retail, healthcare, and enterprise domains.

- Developed production grade iOS applications with strong focus on performance and code quality
- Contributed to solution design, technical discussions, client communication, and release delivery
- Worked on complex UI flows, debugging, performance optimization, and production support

Tech Stack: Objective-C, Swift, UIKit, Core Data, REST APIs

## Achievements

RapidValue Road Warrior — Onsite Performer of the Year (2013)

## Education

BTech — Computer Science College of Engineering Poonjar  
Diploma — Computer Science Govt Polytechnic College Vennikulam
